Whatever your choice in music, you can easily switch from 33 to 45 RPM. For more volume, connect external speakers via the RCA jack on the back of the turntable, you can now fill any size room with music. The turntable also has an output for headphones so you can listen to your favourite music without disturbing anyone else.

The Lenco LS-10 comes with a detachable dust cover that protects the turntable from dirt. You can easily keep the device clean using a soft, dry cloth and the needle can be easily be replaced, how to do this is described in the supplied manual.

With the Lenco LS-10, you can enjoy years of music from the past, played on today's modern equipment.
