Šifra: 15462

Kategorija proizvoda: Studijska oprema i pribor

Proizvođač: MACKIE

Cena: **295,00** EUR

Featuring independent trim on all sources and monitor outs, the Big Knob Studio Plus has mono, mute, and dim functions along with a flexible 2x4 USB recording interface. It is built with two combo XLR-1/4" Onyx mic inputs with phantom power for condenser microphones. Recording and playback is at 24-bit / 192 kHz resolution and the cue mix allows for controlled blending of direct inputs with other signals for zero-latency recordings. Choice of recording paths provides flexibility for applications like podcasting and more.

Additionally, other features include flexible source connections, a convenient 3.5mm input for your smartphone, dual headphone outputs with independent level control, a built-in talkback mic and external mic input, a footswitch input, and 16-segment input metering.

Finally, with its sturdy and built-like-a-tank design, the interface is compatible with all major DAWs on both Mac and Windows platforms. The Big Knob Studio Plus features a download for Waveform DAW and the DAW Essentials plug-in bundle.
