

Mackie Thump 215 - aktivni zvučnik

MACKIE Thump 215 - aktivni zvučnik

Šifra: 16858

Kategorija proizvoda: Aktivni zvučnici

Proizvođač: MACKIE

Cena: **399,00** EUR

The Thump215's mixer features two combo XLR-1/4" mic/line channels with dedicated gain controls, while an XLR output is provided for daisy-chaining additional speakers. A 3.5mm TRS aux input is also available on channel 2 for connecting your favorite portable player. The tough, impact-resistant polypropylene enclosure ensures protection from on-the-road wear and tear. The bottom of the cabinet provides a pole cup for mounting on a speaker pole or stand. The angled design allows the speaker to be used as a floor monitor for onstage performance monitoring.

At a Glance

1400W ultraefficient Class-D amplifier

Built-Like-A-Tank to conquer every gig while lightweight for easy loading

Frequency response: 40 Hz to 20 kHz

Max SPL: 129 dB

15" high-performance woofer

1" compression driver

Built-in Feedback Eliminator reduces squeals and out of control rumble

Music Ducking mode automatically reduces the level of Ch.2 when Ch.1 receives signal

Standard pole mount

Monitor wedge provides optimal angle for use as a floor monitor

Universal power supply

Flexible Inputs / Outputs

Channel 1 features a combo XLR-1/4" input that accepts mic or line signals

Channel 2 features a combo XLR-1/4" line input plus stereo 3.5mm input

Thru output contains audio from both input channels

Performance for a New Generation

These are the loudest, most powerful, and best sounding Thump loudspeakers ever, and they are ready to take on your most demanding gigs. Completely redesigned from the ground up, Thump has beefier drivers, 1400W Class-D amplifiers, and powerful tools to make your next gig easier than ever.

Music Ducking

You've got music playing nice and loud, but it's time for another announcement. Sure, you could mess with your levels every time, but who's got time for that. Simply press the Music Ducking button, and channel 2 will automatically turn down whenever you speak into the mic on channel 1.

Feedback Eliminator

Ever get a little too up close and personal with the microphone only to hear a loud, ear-destroying squeal? That's commonly known as feedback. And it's an unfortunate issue that physics won't change its mind on. But wait! Hit the Feedback Eliminator button and laugh in the face of those silly acoustic laws.

Mackie Thump215 Specs

Configuration Active 2-Way

Enclosure Type Bass-Reflex Loudspeaker

Total Power Capacity 1400 W Peak

Amplifier Class Class-D

Drivers

HF Driver 1 x 1" / 25.4 mm Titanium Dome Compression Driver

MF Driver None

LF Driver 1 x 15" / 381 mm Woofer

Performance

Frequency Response 40 Hz to 20 kHz -10 dB

Maximum SPL 129 dB SPL

Connectivity

Audio I/O 2 x Combo XLR-1/4" TRS Balanced/Unbalanced Mic/Line Input

1 x 1/8" / 3.5 mm TRS Female Unbalanced Line Input

1 x XLR 3-Pin Male Balanced Line Output
