Šifra: 7389

Kategorija proizvoda: DJ kontroleri

Proizvođač: Native Instruments

Cena: **171,00** EUR

Trigger Loops+Samples

The Kontrol F1 is specifically designed to be a complimentary controller - letting you add loops, stabs, one-shot hits, and more to the mix.

Fade and Filter

Beyond just a simple clip triggering controller, the F1 has four faders and filter knobs that are dedicated to each Remix Deck slot. DJTT's Maps database has a ton of custom mappings for these controls

Remix Deck Sets

The KONTROL F1 includes around 1.4 GB of premium grade sound, pre-loaded as Remix Sets. Or you can import your own samples, and even capture loops and sounds live, using the controller's multi-color pads & ergonomic faders.

Technical Details

System Requirements:

Free USB 2.0 port
