Kategorija proizvoda: DJ kontroleri

Proizvođač: Native Instruments

Cena: **173,00** EUR

WORLD'S SMALLEST PRO DJ MIXER

TRAKTOR KONTROL Z1 is the ultra-compact 2-channel mixer, controller, and soundcard for TRAKTOR DJ 2 and TRAKTOR PRO 3.

LITTLE GIANT

Mix and pre-listen to your tracks with pro precision. Dedicated controls for two channels give you intuitive, tactile control over volume, EQ, filters, and effects. And the built-in 24-bit audio interface delivers powerful, club-ready sound.

Hook it up to your iPad or laptop and start playing – wherever you are.

iOS READY

The Z1 turns your iPad into a tactile, two-channel TRAKTOR DJ 2 rig. Cue-up the next track in your headphones while the current track still plays for the crowd. Mix, adjust EQ, and apply filters or effects.

TRAKTOR KONTROL Z1 even keeps your device charged with the NI Power Supply while you play – never worry about flat batteries during peak-time sets.

TRAKTOR PRO - ON-THE-GO

TRAKTOR KONTROL Z1 also offers ready-to-go compact control of TRAKTOR PRO EQs, filters, and FX Units on two channels at a time, keeping you ready for the afterparty - always.

It doesn't end there: Expand your creative possibilities by adding TRAKTOR KONTROL X1 to the rig and control effects, loops, and transport functions like play and sync.

WHAT'S INCLUDED

TRAKTOR KONTROL Z1 comes with the introductory TRAKTOR LE software to get you started. Two software decks, three effects, and all you need to get the party going.

And when you're ready for more, go pro. The Z1 includes a \$50.00 e-voucher - use it to purchase TRAKTOR PRO 3 or any other downloadable NI software.
